To Whom It May Concern,

Re: Diana [FULL NAME], DOB [DOB]

I am [DR NAME], [TITLE] at [CLINIC]. I examined/assessed Ms. [SURNAME] on [DATE(S)]. She presented with concerns regarding cyber/security issues and child protection involvement. Based on my clinical assessment and available records:

- There is no evidence at this time of psychosis or acute psychiatric risk.
- Ms. [SURNAME] is oriented, coherent, and able to engage appropriately.
- She reports targeted device/network irregularities; these are being pursued via lawful digital forensics.

In my opinion, Ms. [SURNAME] is medically/psychiatrically safe to parent, with routine supports as any caregiver might require. I recommend that child contact proceed and the case be reviewed upon receipt of relevant medical and digital-forensic findings.

Sincerely,
