Dear Diana,

I am responding to your email dated 11 December 2025.

First and foremost, I would like to explain that we always have to submit urgent support requests to our chairperson. To do so, we need the most recent bank statements. Given that it was already early November, it is possible that you had already received your living wage from your collective debt mediator. In this case, the OCMW would not pay urgent assistance for the prepaid meter top-up, but would rather look into how we can continue to help you with the monthly payment of the prepaid meter top-up.

I am also convinced that you need this support, given that your social assistance has been reduced. You need monthly financial support so that you can be helped in the longer term.

That is why I think it is very important that you come by to apply for this support. We can then also see if you can receive further financial support.

I would like to help you further, but I ask one thing of you: please come to the office. It is extremely busy, so I do not have enough time to visit your home.

I would also like to ask you what exactly the problem is with the heating. Is the boiler broken? Or do the heating taps need to be checked? Or are you unable to top up the prepaid gas meter?

I have an appointment available tomorrow morning at 9 a.m. Would that work for you?

Feel free to suggest another time and I will check my diary.

Kind regards

Met vriendelijke groeten

Formal Summary of Events:

Diana Gayanovich vs OCMW

****To:**** Kelly Weynants
****From:**** Diana Gayanovich
****Date:**** 15.12.2025

****Section 1: Context of Urgency****

I am writing to formally document the extreme hardship and neglect I have endured despite my multiple, clear requests for assistance. My situation has reached a point where basic survival is undermined by systemic failures. The following critical facts underlie my concerns:

1. I have been without heating since early October 2025.
2. I have been without hot water, and I am now without electricity since December 8, 2025.
3. I submitted all the evidence requested (e.g., bank statements, forensic artifacts documenting my situation), yet my urgent needs were dismissed.
4. The police have unjustly labeled my requests for help as "psychotic," misinterpreting technical reports and evidence.
5. My financial situation directly results from systemic failures to investigate and address technical abuse, which I have fully documented.

****Section 2: Evidence Overview****

- ****Bank Statements:**** Submitted for the requested periods, showing insufficient funds to meet survival needs.
- ****Technical Evidence:**** Forensic snapshots and documents proving technical issues, as submitted to law enforcement, were ignored and dismissed.
- ****Witnessed Neglect:**** Multiple officials and services failed to act even after clear communication and thorough documentation.

Section 3: Systemic Failures

1. Dismissal as Psychotic:

- My legitimate technical concerns and evidence have been pathologized instead of investigated. This extreme misjudgment has damaged my trust in the system.

2. Failure to Provide Basic Utilities:

- Despite urgent requests and documentation of my income insufficiency, I was left without electricity, heating, or hot water during winter.

3. Erosion of Parental Rights:

- My children have been taken from me under the guise of safeguarding them while no concrete evidence supports claims of negligence on my part.

4. Inhumane Bureaucratic Delays:

- Rejecting urgent life-saving requests because of missing minor documentation demonstrates a lack of basic human decency.

Section 4: Request for Immediate Resolution

Immediate Actions Requested:

1. Recharge my electricity and ensure access to basic survival needs.
 2. Recognize the systemic failures in responding to my situation and halt punitive measures against me.
 3. Investigate and revisit the decisions taken under the assumption of psychosis, as evidence contradicts this diagnosis.
-

I will not attend in-person meetings as I have lost trust in the system's ability to treat me with the humanity and dignity I deserve. Communication can proceed via email, and all requested documents can and will be provided.

Closing

I ask you to take this matter seriously. I am not seeking charity—I am demanding justice and recognition of systemic failures that have harmed not only me, but the well-being of my children.

Sincerely,

Diana Gayanovich
